

Warner Parks Compass Course

For centuries, compasses have been used to navigate uncharted lands and territories all across the world. Map & Compass reading is a competitive sport, with millions of participants from all around the world.

The Warner Parks Compass Courses are designed to provide an easy introduction for beginners, as well as provide a moderate challenge for more seasoned participants. Located just off Hwy. 100 in the Benefactor's Grove field adjacent to the main entrance of Edwin Warner Park are 6 different courses with varying degrees of difficulty. Each course consists of five lettered aluminum markers that spell a nature related word. Participants will be provided with the compass course headings, and the distance in feet to each lettered marker. Participants can calculate their pace count, by using the 6 numbered course markers placed 25 feet apart.

For more information regarding the Warner Parks compass courses, please contact Lisa King at the Warner Parks Headquarters, (615) 370-8051 or by email: lisa.king@nashville.gov
